## Technical science

<i>Belyushin D.V., Lagunova Yu.A.</i> Regression analysis dependence of the force on the area of indentation and hardness linings vibrator.....	17
<i>Volkova L.P., Kostin V.N., Pankrushin P.Yu.</i> Conceptual model of the SAPR database strugovykh of units and installations .....	23
<i>Gromadskiy A.S., Khrutskiy A.A., Bobyr' V.G., Kuz'menko D.I.</i> Research and forecasting of wear of the button bit-expanders for drilling countervailing holes in hard rocks.....	31
<i>Karabutov A.A., Nguen Xuan Man, Pham Manh Hao, Cherepets-kaya E.B., Shibaev I.A.</i> The possibility of controlling the structure and properties of fiber-reinforced concrete method of laser-ultrasonic structuroscopy .....	40
<i>Korobova O.S., Tkacheva A.S.</i> Ecological aspects of cement production .....	46
<i>Kulyanitsa A.L., Fomicheva O.E.</i> EDA multi-agent model for organizational domains.....	59
<i>Matsko N.A., Kharitonova M.Yu.</i> Oil market tendencies.....	69
<i>Nagovitsyn O.V., Lukichev S.V.</i> Mining and geological information systems, areas of application and features of building.....	82
<i>Pashkov E.N., Ziyakaev G.R., Tsygankova M.V., Ponomarev A.V.</i> Analysis drilling machines hydrolups mechanism efficiency .....	92
<i>Popov N.A., Chorakaev O.E., Trushnikov V.E.</i> Development model of distribution of electromagnetic field in the environmental control .....	99
<i>Romanov V.V., Mal'skiy K.S., Dronov A.N.</i> Selection of optimum parameters of microseismic vibration recording in underground excavations.....	106
<i>Suknev S.V.</i> Determination of static elastic modulus and Poisson's ratio of rocks under water content variation .....	115
<i>Kholodnikov Yu.V., Tauger V.M.</i> Higher operational reliability of mining equipment through the introduction of composites.....	129
<i>Yunovidov D.V., Sokolov V.V., Bakhvalova E.V., Donskikh V.A.</i> Development of a standard sample of apatite concentrate. effective control of homogeneity by xrf analysis methods .....	142

## Earth sciences

<i>Belodedov A.A.</i> Motivation to technologies of the development fine and average, horizontal and tilted coal layer with provision for quality gained mountain mass (on example of the mines East Donbass)» .....	157
<i>Vasilenko T.A., Voloshina N.I., Kol'chik I.E., Molodetskiy A.V., Podrukhan A.A.</i> Research of methane maintenance in soil air in the area of geological faults output under the sediments .....	166

<i>Voznesenskiy E.A., Pustovoytova N.A.</i> Justification of thermometric control methods of solvents in the roof of underground storage in salt caverns .....	173
<i>Gorev D.E.</i> Improvement of mining technology for large sandwich brown coal fields.....	185
<i>Dzhuraev R.U., Merkulov M.V.</i> Utilization of the heat engine driving the compressor and the excess air when drilling exploration wells with air purge .....	191
<i>Ermakova I.A., Pirieva N.N.</i> Analysis of protective pillar geomechanical condition on A.D. Ruban mine .....	199
<i>Zhirov D.V., Klimov S.A., Panteleev A.V., Zhirova A.M.</i> Identification of geodynamic hazard control factors in terms of 3D geological-structural model of the natural-technical Rasvumchorr Mine-Tsentralny Open Pit system in Khibiny.....	224
<i>Kurakov Yu.I., Nikolenko O.I., Oleynik P.P.</i> Core of the information system of economic production and energy cluster in coal industry.....	236
<i>Lis S.N., Varekha Zh.P.</i> Self-organization of mountain range at technogenic affecting him .....	249
<i>Morozov V.N., Batugin A.S., I.Yu. Kolesnikov, Tatarinov V.N., Kagan A.I., Tatarinova T.A.</i> Prediction of geodynamic stability of geological environment in underground isolation of radioactive waste .....	262
<i>Novikov E.A., Oshkin R.O.</i> Patterns in acoustic emission of soils on their freezing and thawing as a function of both clay content and intensity of cryological processes.....	272
<i>Nosenko V.D.</i> problem of eliminating explosions of methane and coal dust in mines .....	286
<i>Ordin A.A., Tymoshenko A.M., Kolenchuk S.A.</i> On the nonlinear methane concentration dependence of face length and allowed productivity of longwall mining by gas factor .....	298
<i>Okhapkin A.Yu.</i> Evaluation explosion discrete heated electrical components for explosive mixtures category IIA.....	305
<i>Pavlenko M.V.</i> Process control methane impact from low-permeability coal seam on the basis of vibration exposure.....	312
<i>Pozdeev I.A., Pozdeeva I.M., Vasil'ev P.V.</i> Research of dependence of parameters of the intense deformed condition of the rock mass on resistance of section fix of the mechanized face.....	327
<i>Radchenko S.A., Matvienko N.G.</i> Scientific substantiation of methods of express-forecast at faces of gas release from coal using the change its temperature .....	335
<i>Sokolov I.V., Smirnov A.A., Rozhkov A.A.</i> Justification of optimal parameters of drilling and blasting at the breaking of the quartz.....	349
<i>Chernyshov A.V.</i> Method to reinforce re-use stopes by multiuse rigid structures .....	356

<b>Shevchenko A.E., Pirogov G.G.</b> Improvement of the system development Novo-Shirokinskogo field sublevel drifts .....	363
<b>Works of young scientist</b>	
<b>Alenichev I.A.</b> Correction of explosive ratio with allowance for apatite-nepheline ores flooding.....	372
<b>Bugaets V.V.</b> Justification for economic efficiency of environmental measures to improve the lower Don Basin.....	382
<b>Zemtsovskaya E.V.</b> Rock dumps mining recultivation the case of «Kov-dorsky GOK» JSC .....	390
<b>Kalyuzhnaya R.V.</b> The investigation of the influence of magnetic field on the properties of fluidization of ferromagnetic suspension in the process of magnetic-gravity separation .....	401
<b>Kalyuzhny A.S.</b> Defining the parameters of fractured zone and volume of potential cavings for the conditions of the Oleniy Ruchey open pit.....	411
<b>Kostyukova A.V., Pavlov M.M., Chibinev K.N., Yants A.I.</b> Development of automated information system control combat training in garrison duty fire .....	417
<b>Pikel' K.S., Fedotov G.S., Zhuravlev E.I.</b> Intelligent system for drawing up the program of work of coal face system to shift.....	424
<b>Special editions GIAB</b>	
<b>Trifanov G.D., Mikryukov A.Yu.</b> Increased efficiency operating mine lifting installations appointed systems monitoring smooth of movement skips .....	116
<b>Belin V.A., Acheeva E.A., Gurieva E.Yu.</b> Determining the maximum value of the electric charge by a known temperature of explosive inflammation .....	192
<b>Gorinov S.A., Maslov I.Y., Bragin P.A.</b> Initiation of emulsion explosives sensitized with gas pores of the linear emulsion primer .....	402
<b>The deposited manuscripts</b>	
<b>Boyarskikh G.A.</b> Improving the methodology of statistical simulation of reliability parameters of carbide drilling tools.....	70
<b>Dubinin P.I.</b> Determining the number of diamond grains, at the same time involved in the process of cylindrical grinding stone.....	100
<b>Dubinin P.I.</b> Terms of strength of products made of natural stone with round grinding by the method of longitudinal feed .....	107
<b>Dubinin P.I.</b> Terms of strength of products made of natural stone with round grinding method cross feed.....	130
