## **Geotechnology (underground, open and construction)**

<i>Sidorova G.P., Avdeev P.B., Yakimov A.A.</i> Geological-industrial evaluation and prospects of the Southern Argun's coal-bearing area exploitation.....	5
<i>Dragunskiy O.N.</i> Destruction of inversions by natural winds inside open pit mines.....	14
<i>Kostenko B.V.</i> Analytical procedure for slope stability calculation using rigid-plastic model.....	20
<i>Mazina I.E., Gangan P.P.</i> Reduction in environmental impact of underground coal mining with backfilling.....	28
<i>Cheban A.Yu.</i> Method of exercise work for small coal cuts with the application of an advanced mine operating combine .....	36
<i>Shulyupin A.N., Chermoshenceva A.A., Varlamova N.N.</i> Development of hydrothermal mineral deposits with the transport of steam-water mixture: New challenges .....	43

## **Rock failure**

<i>Leschinsky A.V., Shevkun E.B., Lysak Yu.A.</i> The effect of direction of initiation of charges explosives for rock microcracking solid rock .....	50
---	----

## **Geocology of mining industry**

<i>Subbotin Yu.V., Oveshnikov Yu.M., Avdeev P.B.</i> Water supply of dredges and process water purification at placer mining Srednaya Borzya .....	58
<i>Epshtein S.A., Kossovich E.L., Minin M.G., Prosina V.A.</i> Insights into fine particles formation by low-rank hard coals mechanical testing at low dimensional scales.....	69

## **Mining industrial geology**

<i>Metaksa G.P., Moldabayeva G.Zh., Alisheva Zh.N.</i> Mechanism of structure formation in fluid-bearing minerals.....	78
<i>Chekushina T.V., Butolin A.P., Shcherba V.A., Vorobiev K.A.</i> Technogenic transformations of the geological environment in the oil and gas Orebureg industry region .....	85

## **Mining geophysics**

<i>Nikolenko P.V.</i> Hardware and methodological support of complex stress-strain state monitoring of rock massif using memory effects in elastic composite sensors .....	97
--	----

## **Mining machinery and equipment**

<i>Averin E.A., Naumov Yu.N., Smychnik A.D., Smychnik E.A.</i> Cutterhead of shaft boring machine for hard rock destruction.....	105
<i>Germanov A.A., Trushin A.A., Tikhonov N.O., Tregubov A.A.</i> Advanced technology for automatic control of operation parameters in mineral processing .....	114
<i>Klement'eva I.N., Kuziev D.A.</i> Actual status and prospects for future development of surface miners, designed for for blastless lit-by-lit excavation of solid rock.....	123
<i>Kosareva-Volod'ko O.V.</i> Review of the current approaches and systems of oil transformer diagnostics .....	144
<i>Sekretov M.V., Gubanov S.G.</i> Load calculation technique for vertical feed drive of curve strip sawing machine.....	136

<i>Teryekhin E.P., Tulinov R.A.</i> Modernization of armor lining the cone crushers fine crushing.....	146
<i>Yurchenko V.M.</i> Center adjustment of conveyor belts Experimental substantiation of rational modes of sod peat production.....	156
<i>Yablonev A.L., Guseva A.M.</i> .....	163

### **Enrichment of minerals**

<i>Norov Yu.D., Borovkov Yu.A., Derevyashkin I.V., Yakshibaev T.M.</i> Optimization of grain size for heap leaching of gold ore in multi-level stockpiles.....	172
<i>Skibin S.V., Bulgakov S.V., Savushkina S.I.</i> Processing technology for the Poputninskoe deposit ore .....	181

### **Geoinformatics**

<i>Win Zaw Htay, Pevzner L.D., Temkin I.O.</i> Algorithmic and hardware support for on-board information system of walking dragline excavator.....	190
<i>Strashun Yu.P.</i> Analysis of application technology (referent) architectures IIoT in automation and control systems (in Russian: САУ).....	197
<i>Yanchenko G.A.</i> Coefficients of loosening and swelling of rocks .....	206

### **Production organization and management in mining**

<i>Zaytseva E.V.</i> Strategic management in the cement industry.....	214
<i>Kushnir M.A.</i> Public-private partnerships in the development of mineral deposits .....	221

### **Special editions GIAB**

<i>Aleksandrova T.N., Semenikhin D.N., Potemkin V.A., etc.</i> Current trends in the enrichment of natural and man-made raw materials of different mineral composition .....	42
<i>Abramkin N.I., Mestoeva Kh.Kh., Mestoyev I.Kh.</i> Substantiation of technological solutions with integrated mining of stocks of excavation sites of coal mines.....	162
<i>Mel'nikov Z.G., Konoplev V.N., Belitskiy G.V., etc.</i> Increase of reliability of connections in the main pipelines and in fittings of the vehicles working on gas motor fuels.....	205
<i>Kurbatov D.S.</i> Tools for assessment and selection of effective options for organization of interaction of sections with outsourcers in conduct of drilling and blasting.....	213
<i>Abramova M.A.</i> Prospects of gold production and consumption in the world. Technological and economic aspects.....	220
<i>Gusev V.N., Golovin G.D.</i> Modification of mathematical treatment for orienting and connecting shooting using a plane of linear polarized laser beam.....	229

### **The deposited manuscripts**

<i>Boyarskikh G.A., Boyarskikh I.G.</i> Formation of adaptive performance properties of reinforcing carbide elements of drilling tools .....	84
--	----
