

CONTENTS

Underground mining

Trubetskoi K.N., Kaplunov D.R., Victorov S.D., Rylnikova M.V., Radchenko D.N. Scientific rationale of technologies for comprehensive resource-saving exploitation of strategic mineral resources	5
Vereshchak V.Yu., Kazikaev D.M. Combined open-pit and underground mining transportation systems: ore mass' quality probabilistic evaluation and optimization	13
Ermakov A.N., Aksenov V.V., Khoreshok A.A., Ananiev K.A. Review of existing constructions of out of tunnel cross section cutters	20
Malkin A.S., Agafonov V.V. Algorithm of modeling development and update of operating coal mines owing to investment management based in integral criteria of investment attractability	25
Rylnikova M.V., Eremenko V.A., Esina E.N. Destressing of rockburst-hazardous and damaged zones	32
Smirnov S.M., Eremenko A.A. Consideration of the stress-strain state of a rock mass in ore blasting in the chamber mining process at Estyuninskaya mine, JSC Evraz VGOK	40

Open-cast

Belyakov N.N. Modeling of open pits	45
Bilin A.L. Stripping ratios classification	52
Doan Van Thanh, Fomin S.I. The steep pitch water-bearing deposits opencast mining	64
Kostromin M.V., Greshilov D.M. Technique, technics and technology of definition, decrease and liquidations in interstep-by-step and interrunning sights at draged to development of looses	68

Enrichment of minerals

Belova T.P., Ratchina T.I., Gavrilenko Yu.S. Sorption of copper, nickel and cobalt by natural zeolite from aqueous solutions	76
Bocharov V.A., Yushina T.I., Ignatkina V.A., Chanturiya E.L., Vishkova A.A., Khachatryan L.S. Technological evaluation of the main directions of complex processing of refractory ores and products	81
Zashikhin A.V., Gur'yanov A.E., Ananenko K.E. Modernization of control operations of auriferous Sands	92
Zolotarev F.D., Aleksandrova T.N., Lvov V.V., Ivanov B.S. Ultrafine grinding as a method of intensifying pressure oxidation refractory gold flotation concentrate	96
Melik-Gaikazyan V.I., Dolzhenkov D.V., Emel'yanova N.P., Yushina T.I. Nanobubbles and mechanism of their phenomenal flotation response and selectivity. Part II: Energy calculation of A→M transition in terms of milli-, micro- and nano-bubbles	101
Mikheyev I.I., Goryachev V.I., Vorobiev S.E. Calculation of geometrical parameters of the vibration drive of the vibrated layer dryers for particulate materials	114
Salomatova S.I., Matveev A.I. The results of experimental researches on the separation of the finely divided ore materials by the degree of flotation expose	119

Skorokhodov V.F., Nikitin R.M., Yakushkin V.P., Stepannikova A.S. Studying mineral distribution in flotation products using mathematical tools of computation fluid dynamics (in terms of nepheline concentrate).....	123
--	-----

Measuring, control, diagnostics

Komissarov A.P., Pobegailo P.A., Shestakov V.S. Technique the express train of the analysis of power consumption at diggings of rocks	138
Kosukhin N.I., Sidorov D.V., Shabarov A.N. Stress–strain state assessment in ore body mining in small-amplitude faulting zones.....	142
Mozer S.P., Kovalev O.V., Shvetcov P.K., Kosukhin N.I. Methodology to evaluate extremal quantities of geodynamic stresses in the vicinity of the underground dissolution chambers.....	149
Mukhametshin A.M., Anisimov V.M. Information content of comprehensive inclined-plane measurement for operational risk assessment in support structures of the unique building of Ekaterinburg circus	157
Konyushevskiy A.V., Mukhametshin A.M., Polyakov A.A., Polyakov A.A. The multiparameter optimization of joint systems of support equipment for improvement of efficiency of mining processes.....	162
Nabatov V.V., Gaisin R.M. GPR reinforcement parameters detection for subway's tunnels and building constructions testing. Range of tasks and hindering factors	168
Kuz'min E.V., Svyatetskii V.S., Starodumov A.V., Ioffe A.M., Velichko D.V. Estimate of geomechanical state parameters in stope-adjacent rocks	177
Svyatetskii V.S., Starodumov A.V., Velichko D.V. estimate of geomechanical parameters of rocks adjacent to stopes	187
Pobegailo P.A. To the question on the decision of the direct item problem for hydraulic excavators	193
Fedorov M.P., Fedorova L.L., Omelyanenko A.V. Investigation of the structure of river ice by GPR	198

Mining cars, the equipment and transport

Grabsky A.A., Kantovich L.I. The analysis of dynamic processes in system of the power hydrovolume plant of the career combine equipped with the vibrorheological generator.....	202
Sekretov M.V. The analysis of efficiency for use drill bits for percussive-rotary and rotary-percussive drilling	211
Subbotin M.Yu. Substantiation of drum dryers design by physicommechanical properties of bulk materials	218

Automated control systems

Aristov A.O. Quasi cellular nets in general formulation.....	224
Aristov A.O. Quasi cellular nets. Micro- and macro simulation.....	228
Aristova P.S. 3D-modeling and visualization of mine ventilation systems	233
Kozlov A.P., Timofeev A.S., Korneichik O.E. Analysis of platinum content of svetloborsky dunite ore body using mla automated system.....	240

Aerology, methane, safety

Borisenko A.V., Ivanov Yu.M., Volkov M.A. Analytical estimation of methane inflow to technogenic reservoir from peripheral areas of unloaded coal rock mass	247
--	-----

Karkashadze G.G., Ivanov Yu.M., Ermak G.P. Definition of concentration of methane in the developed space by results of shooting of parameters of a ventilating stream along a lava.....	256
--	-----

Economics and management

Agazaryn N.V. Strategic issues of public-private partnership in the Krasnodar region	263
Bogdanova I.N., Bogdanova A.Y. Sustainable economic development and geoethical dilemmas	270
Grigoriev Y.P., Shevchenko E.V. To the question of risk assessment for silver deposit development projects in west Verkhoyanye of Yakutia.....	274
Ivanova L.V., Kozlov A.A., Tsukerman V.A. Organization of Industrial Service for Mining Production: Russian and Foreign Practices.....	279
Lazanyuk I.V., Revinova S.Yu. Outstaffing: Pros and Cons	284
Chernikov S.Yu. Features of the modern stage of natural diamond market development.....	289
Shorokhova A.V., Dmitriyeva O.V., Fryanov V.N. Economic-mathematical model of processes of utilization and use of waste of the coal enterprises for creation of recreational zones.....	294

Ecology and safety exploration of mineral resources

Antoninova N.Yu., Shubina L.A. On the environmental remediation disturbed lands of Southern Ural	297
Golynskaya F.A., Petrova K.I. Steeply dipping coal seams, as an important factor auto-ignition coals of Kuznetsk coal basin.....	302
Semina I.S., Androkhonov V.A. Mined-land reclamation in Kuzbass.....	307
Sigachev N.P., Konnov V.I., Konovalova N.A., Shekhtman E.V., Pankov P.P. Cryotropic polymeric materials for ground water cutoff construction	315

Electrification mining enterprises

Sadridinov A.B., Pichuev A.V. Evaluation of the efficiency of mining operations on the energy equivalents.....	320
---	-----

Explosive works

Koltyshev V.N. Analysis of the effect of an explosive charge weight on seismic event energy under blasting.....	323
--	-----

Boring technologies

Dzhuraev R.U., Merkulov M.V. Analysis of drilling with air purge	327
---	-----

The higher mining education

Petrov V.L., Goncharenko S.N., Galushka D.P. Development of algorithm of interaction of structural components registry approximate the basic educational programs of higher education	331
Petrov V.L., Goncharenko A.N., Demchishin Yu.V. The functionality of the main sections of the registry approximate the basic educational programs of higher education in the database management system	334

Petrov V.L., Goncharenko A.N., Shagarova O.N. Development of models approximate the basic educational programs in the database management system registry POOP VO	337
--	-----

Works of young scientists

Klochkov Ya.V. Computer simulation of temperature field in ice hillock control	340
Kutkin Ya.O. Substantiation of methods for determining the acoustic quality factor interdependencies and rock strength	346
Larichev L. Yu. To the question influence of construction charge on process of formation dust clouds at production of blusting works on quarry	352
Lyu Tsun Analysis of organization water market in conditions of water shortage	358
Cherednik P.N. Design of computer systems research designed to rolling underground railway mining enterprise	363

Preprints

Vereshchak V. Yu., Kazikaev D.M. A mathematical model for the probabilistic evaluation of the quality of transported ore mass combined open-pit and underground mining	31
Mel'nik V.V., Vasyuchkov Yu.F., Ivkov M.A., Yutyaev A.S. Scientific and methodological basis for the design of mining systems the reserves are large coal deposits on the basis of a combination of various geotechnologies	63
Nguyen Quang Huy Geomechanical assessment of technology microtunnels on carrying capacity of structure is fastened closely spaced tunnel	192
Maslov I.P., Semykina I. Yu., Kiselev A.V., Evstratov A.E. Research of a multi-criterial automatic control system of local ventilation fan for mines	269
Popova G. Yu., Schevchenko Yu.S., Milyukina A.I., Manzirev D.V. Problems and prospects of gold-bearing rock progressing (by the example of Zabaikasky region)	288
Kozharskiy P.V., Zaytseva D.I., Cherepovitsyn A.E., Smirnova N.V., Il'inova A.A., Sheikin A.G. Economic aspects of sustainable development in the modern system of the fuel and energy complex	319
Kaledina N.O., Vorobeva O.V., Milashkina V.A., Galkin A.V. Human factors in safety management system labor coal mining industry	322
Kazanin O.I., Sidorenko A.A., Ermakov A.Y., Vanyakin O.V. Foundation of longwall panels parameters for multiple seam longwall mining	362

The deposited manuscripts

Melnik V.V., Lapshin A.V. Development options mehanogidravlicheskih technologies for testing thin shallow coal seams	339
---	-----
