

C O N T E N T

Underground mining

- Borzakovskiy B.A., Aptukov V.N., Tenison L.O.** On possibility of new sink holes in the flooded mine Berezniki 1.....5
- Ermakov A.Yu., Vasil'ev P.V.** Method of calculation of parameters of fastening of the mountain making of large section.....14
- Lizunkin M.V.** Experiment of longhole stoping of thin uranium ore deposit.....23
- Lyashenko V.I., Golik V.I., Kislyy P.A.** Effectivization of drilling in mines.....27
- Svyatetskiy V.S.** Feasibility of using uranium mill tailings to produce paste backfill at priargunsky mining and chemical works37
- Subbotin V.A.** Flow combine technology sinking mines and tunnels combine.....41

Open-cast

- Kovrov A.S.** Effect of complex geology structure and water content of rock mass on pit wall stability.....45
- Varfolomeev E.L., Mikhaylov A.Yu.** Development of open-underground mining in Tessinsky geological-economic region.....51

Enrichment of minerals

- Tugolukov A.V., Barmin I.S., Beloborodov V.I., Polivanskaya V.V.** Increase of efficiency of concentration stockpiled fine-grained tails of GOK Kovdor.....59
- Bakharev S.A.** Purification of the circulating water producing company in the tailings pond way acoustic68
- Bachurin B.A., Khokhryakova E.S., Odintsova T.A.** Flotoreagents role in formation of composition of a waste of enrichment of potash ores.....80
- Bobin V.A., Grabskiy A.A., Bobina A.V., Pokamestov A.V.** Equivalence of gyroscopic and gravitational forces in disintegration of hard rocks in attrition mills.....87
- Bocharov V.A., Ignatkina V.A., Chanturiya E.L., Yushina T.I., Khachatryan L.S., Dunaeva V.N.** Choice of methods for integrated utilization of pyrite tailings after processing92
- Denisov M.E., Rudnev B.P., Krylova L.N., Kuchmina Yu.S.** Processing technology for udokan copper ore with sulfuric-acid pre-leaching100
- Dolotov A.S., Grigoriev K.A., Kovalev V.N., Kaplan S.F.** The use of reverse osmosis to reduce the concentration of chloride and cyanide ions in autoclave technology for processing refractory gold-bearing sulphide concentrates105
- Konnova N.I.** Studying of material structure and sorption properties of ore of the october field.....108
- Mukhtar A.A., Mukhymbekova M.K., Makashev A.S., Momynbekov A.D., Nuskabekov Zh.S., Kasymova B.K.** Magnetic roasting enrichment of abail deposit limonite ore113
- Opalev A.S., Birukov V.V., Novikova I.V.** Formation of magnetized stabilized fluidized bed in the working volume of magnetic-gravity separator.....118

Potapov V.Ya., Potapov V.V., Konev Ya.I., Semerikov L.A. Separation of mineral system in transport and air stream friction separator	123
Skorokhodov V.F., Nikitin R.M., Stepannikova A.S. CFD method of study of distribution of minerals in products of flotation (for example getting of nepheline concentrate).....	132
Tugolukov A.V., Barmin I.S., Morozov V.V., Polivanskaya V.V. Analysis and optimization of fine apatite-shtaffelite ore flotation	146
Fedotov G.S., Pikel K.S., Zhuravlev E.I. System of automated and energy efficient management of the coal face system.....	156

Building of underground constructions and mines

Vartanov A.Z., Petrov I.V., Fedash A.V. Main trends in underground construction and exploitation of mineral resources of cities and the problems of designing underground facilities in metropolitan areas and zones of industrial agglomerations in cities.....	160
Vartanov A.Z., Petrov I.V., Fedash A.V. Main trends in underground construction and exploitation of mineral resources and cities features of the study of mineral resources in the development of underground space in metropolitan areas and zones of industrial agglomerations in cities	165

Measuring, control, diagnostics

Bakin V.A., Pudov E.Yu., Kuzin E.G., Rempel K.K. Analysis of surveys of mines fixed anchor shoring using GPR	172
Golovin V.V., Nikolashina O.A., Nikolashin S.Yu. Photogrammetric method determination of material loss in fire-technical expertise	178
Fedotov G.S., Pikel K.S., Zhuravlev E.I. Automation of the process of coal face operations, given the state of the rock mass	181

Mining cars, the equipment and transport

Gabov V.V., Zadkov D.A., Lykov Yu.V., Kustrikov E.V. Coal and potassium salt cutting process with a single mining machines cutter study stands	185
Demtchenko I.I., Plotnikov I.S. A griddle with the moving rope field for coal sorting	192
Epikhin A.V. Determination of optimum speed rock cutting tool by amplitude of voltage electric currents generated in rock destruction by drilling.....	196

Geology

Neradovskiy L.G., Fedorova L.L. GPR method assessment of strength of sedimentary and intrusive rocks in South Yakutia permafrost.....	201
--	-----

Aerology, methane, safety

Gavrilyuk V.G., Skoblik A.P., Kolesnik V.N., Shanina B.D., Konchits A.A., Ulyanova E.V. A mechanism for formation of coal methane	211
Zakutskiy E.L. Problems and prospects of dust monitoring in coal mines	222

Automation and information systems

- Martynov A.A., Maleev N.V., Yakovenko A.K.** Thermal design software for high temperature control in deep mines 228
- Ordin A.A., Nikol'skiy A.M., Metel'kov A.A.** Procedure and program (PROZA-4.0) for automated planning of development work and stoping in extraction panel in coal mine..... 238
- Petrov A.E., Ryabov L.P.** Information support for the establishment of network model of enterprises of the mining industry for example Information-analytical system Banking and Finance 248

Geotechnology

- Boriskov F.F., Alenichev V.M.** Development of resource-saving technologies based on adequate data on content of natural sulfides in technogenic deposits 256
- Zaytsev V.V., Rogalis V.S.** Geodynamics of the moscow metropolitan area and radiation hazard-based territorial ranking..... 263
- Chernykh N.G.** Integrated approach in creation of new geotechnological and mining decisions..... 267

Economics and management

- Vartanov A.Z., Kobayakov A.A., Petrov I.V., Romanov S.M., Fedash A.V.** Methodologies of research of a massif at design, construction and operation of underground constructions for the purpose of the accounting of possible risks at an assessment of efficiency of projects of development of a subsoil the gradopromyshlennykh of agglomerations..... 284
- Mikhina T.V., Korobova O.S.** Assessment of the economic losses associated with the condition of the injury and working conditions at the enterprises of mining coal, brown coal and peat in the Russian Federation 290
- Tolkach A.N., Sobolevskiy R.V.** Planning quality management of pyrophyllite raw materials based on the data of geometrization..... 296
- Galieva N.V., Tusheva A.M.** Determining trends of development and activity for Almaznaya mine..... 302
- Fedorkevich T.I., Kashirina S.N., Trofimova I.D., Zakharov S.I.** Connection between work and salary of maintenance personnel 310
- Tsukerman V.A., Goryachevskaya E.S.** Management of mining production of russian arctic: problems and solutions 316

Materials

- Grigoriev K.A., Kaplan S.F., Dolotov A.S., Kovalev V.N.** The determination of the area behavior of the process pressure oxidation of pyrite 328
- Klykov Yu.G.** Physical properties of minerals and the prospects for its modeling..... 331

Mathematical and computer modeling

- Averin E.A., Zhabin A.B.** Model of hard rocks slabbing destruction by abrasive waterjet 336

Nemchin N.P., Vetrov S.V. Solution of inhomogeneous elastic problem of underground geomechanics by explicit finite difference method	342
---	-----

Geoecology

Kovalenko K.A. Natural minerals in ecological management in the mineral mining and processing industry	348
Pashkevich M.A., Alekseenko A.V. Monitoring of soil pollution in the area of JSC «Novoroscement» impact	369
Pashkevich M.A., Chukaeva M.A. Assessment and reduction of the JSC «Apatite» negative impact on surface water	377

Oil and gas

Zakirov A.I., Karimov A.I., Pshenin V.V. Investigation of bitumen oil flow characteristics of Ashalchinskoye oilfield.....	382
Odintsova T.A., Bachurin B.A. Character of the oil pollution transformation in aqueous medium.....	390

Boring technologies

Petrushin E.O., Savenok O.V., Arutyunyan A.S. Analysis of modern technologies interpretation of the results of hydrodynamic investigations of horizontal wells.....	397
--	-----

Works of young scientists

Korolev I.A. Modeling of flowsheet for middlings cleaning on coal preparation plant «Mezhdurechenskaya»	406
Nurtdinova S.N. Develop a program to adjust the brightness and contrast of the screen-board the aircraft.....	411
Pyataev A.A. Designing the user interface on the basis of the voice control	418

Special editions GIAB

Makishin V.N., Malikov A.S., Grigirovskiy I.A. Advanced technologies for development of georesources	91
