

C O N T E N T

Underground mining

- Eremenko V.A.** Safety instructions on rockburst-hazardous underground mining in Gornaya Shoria 5
- Krupnik L.A., Shaposhnik Yu.N., Shaposhnik S.N.** The development of back-filling technology in terms of tellur mine, Akmola Gold 10
- Maslennikov S.A.** Optimization of parameters of construction technology shafts 17

Open-cast

- Cheskidov V.V.** Engineering-geological zoning of the projected south-western overburden dump OF «Stoilensky GOK» 24
- Shpakov P.S., Yunakov Yu.L., Shpakova M.V., Chumliakov V.A.** Influence on stability fractured pit and its variability in size and depth on Gorevsky field 32
- Shtirts V.A., Koltyshev V.N.** Development blocks and the distribution of aftershocks after massive explosions in the conditions of the Tashtagol deposit 41

Enrichment of minerals

- Golberg G.Yu., Lavrinenko A.A.** Formation, existence and breakup of flocculation structures 47
- Mesyats S.P., Ostapenko S.P., Skorokhodov V.F., Nikitin R.M.** Study of sorption characteristics of solid phase thickener overflow in apatite processing circuit 55
- Opalev A.S., Birukov V.V., Scherbakov A.V.** Stadial obtaining of the magnetite concentrate during the development of power resource-saving technology of beneficiation of ferruginous quartzites on JSC «Olcon» 60
- Skorokhodov V.F., Nikitin R.M., Stepannikova A.S., Yakushkin V.P.** Initialization of close-cut separation fractions in modeling exercise on heterogeneous flotation system 63

Geology

- Bolobov V.I., Bochkov V.S., Chupin S.A., Stepanov S.Yu.** Dependence of the abrasive properties of rocks from their fortresses 74
- Verkhoturov A.G.** The influence of cryolitozone degradation on the complexity of geological conditions of non-ferrous and rare metals of Transbaikalie 80
- Moseykin V.V., Musaev N.M.** Clustering of physical and mechanical properties of saw limestone quarry Pervomaisky 88
- Yanchenko G.A.** Indicators of content of ice and water unfrozen in the frozen rocks and soils 93

Mining cars, the equipment and transport

- Busygin A.M.** Kinematic analysis of mechanism of shovel crawler arm with three degrees of freedom using analytical method 102
- Malafeev S.I., Tikhonov Yu.V.** Intellectualization of a career excavator 107

Muluhov K.K., Beslekoeva Z.N. Increase of the reliability of the design of steeply angle elevating belt-wheeled conveyor for handling bulk lumpy mining loads	116
Fomin K.V., Zhigul'skaya A.I. The definition of the spectral density of the moment on the working body of the machine deep milling in the preparation of peat deposits exploitation.....	123
Goryunov S.V., Sharipov V.M. The prediction of durability of the pneumatic tire dump trucks	127
Shigin A.O. Rolling cutter bit life gain in complex structure rock masses.....	131

Building of underground constructions and mines

Kulickov Yu.N. The definition of external loads seal on concrete mix when laying into the secondary lining of the underground constructions.....	137
---	-----

Physicotechnical control of processes mountain manufacture

Nikolenko P.V., Kormnov A.A. Stress state monitoring of rock mass using acoustic emission effects in anisotropic composite materials	143
Sultanalieva R.M. Determination of the specific energy intensity and optimum temperature of the strong ores after influence of microwaves.....	148
Tazhibaev K.T., Sultanalieva R.M., Tazhibaev D.K. Polarisation-acoustic method of definition of the residual and acting stresses of rocks	153
Nemchin N.P., Terentyev P.Yu. Application of numerical methods to calculate the rock pressure in the horizontal excavations in the presence of technological influences	162

Aerology, methane, safety

Gendler S.G., Sinyavina S.V. Features of control of the new Baykalsk railway tunnel ventilating mode.....	173
--	-----

Economics and management

Komissarova M.A., Komissarov V.D. Working models of adaptation coal mining companies to their innovational development	180
Ryabova T.F., Fomina V.P. The system of environmental and economic indicators of sustainable development	189
Holodnyakov D.G., Dzendzik A.A. Output value accounting in distribution of general input per different minerals at an open pit mine	196
Yastrebinskiy M.A., Guseva N.M. Marginal approach to gold price management in jewellery and mining	201

Mathematical modeling

Valuev A.M. Problem of Pareto optimization of a trajectory on a network as a meta-model of multiobjective choice of project parameters for mining enterprises	215
Gendlina L.I., Kulikova E.G. About numerical modeling of dynamics of a vibration feeder for rock mass release.....	224

Isaev A.B., Khalabi S.M., Alnadfa A. Algorithm for bias of coefficients of linear and parabolic regression relationships obtained using conventional least square method in metrological certification of instrumentation	231
Lan Tianwei, Zhang Hongwei, Li Sheng, Tang Guoshui, Han Jun, Song Weihua, Batugin A.C., Batugina I.M. Study on coal and gas outburst regional prediction by pattern recognition.....	237
Nikolaev P.V., Shuplik M.N. Mathematical modeling of artificial ground freezing with using solid carbon dioxide.....	243
Pankratenko A.N., Nguyen Quang Huy, Samal' A.S., Begalinov A.B., Aman-tolov D.B. Mathematical modeling of influence of microtunneling by punching on stress state of enclosing rock mass and on support of existing tunnel.....	252

Explosive work

Lyashenko V.I., Kislyy B.P., Alekhin A.I. Enhancement of blasting efficiency in mines.....	259
---	-----

Ecology

Bykadorov A.I., Larichkin P.M., Svirko S.V., Yagunova O.A. Analysis of dynamics of flooding in mine conservation in Kuzbass.....	269
Krylov D.A., Sidorova G.P. Ways reduce the environmental impact environmental coal plants Russia	277
Yakovlev V.L., Laptev Yu.V., Yakovlev A.M. Methods qualitative characteristics geometrization Gusevogorskoye deposit of titanium ores	286
Kalinin S.I., Pudov E.Yu., Kuzin E.Yu. Prospects of application of GPR to determine the condition of the roof shaft workings	297
Venkova Y.A., Krapivsky E.I. Study of the stress state influence on induced pipelines magnetic field	300
Popov S.M., Kozlov O.V. Methodological basis for the organization of innovative solutions for the protection of the atmospheric air in the underground technosphere city.....	306

Automated control systems

Samarin N.N. Estimation of optimum length for chain of processor instructions for addresses in memory space to obtain the characteristic signature of a running program	316
Sukhanov V.I., Alenichev V.M. Prospects for the introduction of geological information systems on the domestic mining enterprises.....	320
Shek V.M., Morozov V.V., Litvinov A.G. Recognition of objects in mineral products	330

Oil and gas

Zakirov A.I., Nikolaev A.K., Pshenin V.V. Investigation of the rheological model mixtures of the bituminous and low-viscosity oils of ashchinskoye oilfield.....	353
---	-----

Chernykh N.G. Hydrocarbons, their formation methods and discovery of new reservoirs (sources of deep oil and gas products)	360
---	-----

Works of young scientists

Gashigullin A.G. Innovative development and high technology in the Republic of Tatarstan	378
Dzendsik A.A. Associated minerals storage capacity at complex deposit	389
Mamay A.V. Analysis and design of control for interconnected drives of shovel	395
Mel'nichenko A.M. About increasing the part of the small-scale and middle-scale deposits in mining sector of Russian Federation	400
Nguyen Tkhe Ha The main directions of improvement of coal mines Vietnam ventilation (in terms of Mao He's mine)	403
Reshetnikova O.S. Research of characteristics of movement of the hydraulic hammer's peen.....	408

Special editions GIAB

Ligotskiy D.N., Kholodnyakov G.A., Abdullaev M.D. and others. Industrial safety mineral complex in the XXI century.....	142
Tkach S.M., Yakovlev V.L., Rasskazov I.Yu. and others. Geomechanical and geotechnical problems of development of mineral resources of the North	200
Anisimov V.N. Substantiation of iron ore mining and blasting, considering geological and geophysical characteristics and the rational subsoil use standards.....	399

The deposited manuscripts

Kondratenko V.E., Devyatyarova V.V., Pikel K.S. Calculation of trapezoidal frame by bolting forces.....	130
Safonova E.G. Features of accounting and valuation of fixed assets in russian non-state universities	172
Juraev R.M., Merkulov M.V. Modeling of the temperature regime during drilling in frozen rocks with the blast of air when using the vortex tube.....	335
