

CONTENTS

Underground mining

| | |
|--|----|
| Ageenko V.A., Baklashov I.V. Development of theory and modeling of processes of arching in the vicinity of a tunnel..... | 5 |
| Aynbinder I.I., Ovcharenko O.V., Patskevich P.G. Justification of geotechnology parameters for iron ore mining at Yakovlevskoe deposit..... | 8 |
| Lizunkin M.V., Tyupin V.N., Lizunkin V.M. The establishment of the crushing area radius of fractured strained massif destruction during explosion of two parallel contiguous charges of blasting compounds..... | 16 |
| Lyashenko V.I., Kislyy B.P., Alekhin A.I. Effectivization of non-productive operations in underground mines..... | 23 |
| Petrov A.N. Analysis data on introduction of room-and-pillar with backfilling in Aikhal mine..... | 31 |
| Potapchuk M.I., Tereshkin A.A., Rasskazov M.I. Assessment of geomechanical condition of rock massif in the process of development of difficult-structured ore bodies by the sublevel drifts system with the controlled roof caving..... | 39 |
| Tyupin V.N., Lizunkin M.V., Lizunkin V.M. Determination of breaking zone of strained fractured array during simultaneous explosion of several parallel contiguous charges of blasting compounds..... | 46 |
| Cherdantsev N.V. Геомеханическое состояние массива горных пород вокруг выработки и геологического нарушения..... | 52 |

Open-cast

| | |
|--|----|
| Sekisov G.V., Cheban A.Yu., Iksanov V.A. The main directions of the universalization of quarry equipment..... | 59 |
|--|----|

Enrichment of minerals

| | |
|--|----|
| Golik V.I., Komashchenko V.I. Optimum criterion of utilization of tailings of ore with a view to applying them in manufacture of solid mixtures..... | 65 |
| Ovchinnikov N.P., Vikulov M.A. Analysis of operation of slurry pumps company Metso» in conditions hydrotransport of separation's products (for example concentrating factory № 16)..... | 73 |
| Tazhibayev K.T., Sultanalieva R.M. Power saving up way of crushing of strong ores..... | 76 |

Mining cars, the equipment and transport

| | |
|--|-----|
| Bochkaryov Y.S., Dovidenko G.P. About use of scraper on alluvial deposits..... | 83 |
| Kozhukhov L.F. Regulatory framework for mining equipment quality and safety control in design and conformance evaluation..... | 86 |
| Khoshok A.A., Pudov E.Yu. Definition of performance indicators new designs excavator buckets..... | 101 |
| Kuznetsov Yu.N., Stadnik D.A., Stadnik N.M., Kakorina N.M., Chizhov V.N. Basic principles of development and practical implementation an algorithm for automated prediction of geological conditions for coal deposits..... | 108 |

| | |
|---|-----|
| Skorokhodov V.F., Biryukov V.V., Nikitin R.M., Yakushkin V.P. Modification of mineral particle's physical properties in separation processes | 115 |
| Mulyavko V.I., Lyashenko V.I., Oleynik T.A., Kirichenko A.M., Oleynik M.O. New technologies and technical means for collecting magnetic dust selective mineral processing | 123 |
| Shcadov I.M., Konukhov V.Yu., Chemezov A.V., Beliaevskaia T.S. Proposal for implementation on the concept of enterprise maintenance and repairs of mining and transportation machinery and equipment | 134 |
| Building of underground constructions and mines | |
| Kulickov Yu.N., Kulickova E.Yu. The determination of the level of strength and water resistance secondary concrete lining | 144 |
| Aerology, methane, safety | |
| Zaitsev A.V., Semin M.A., Klyukin Yu.A. Improvement of microclimate conditions rationing criteria in mine airways..... | 151 |
| Kazakov B.P., Shalimov A.V., Grishin E.L. Development of air flow and heat distribution models for emergency mine ventilation modes | 157 |
| Levin L.Yu., Semin M.A., Gazizullin R.R. Numerical simulation of air distribution variation in mine ventilation networks in case of main fan reversal..... | 164 |
| Pozdeev I.A., Pozdeeva I.M., Vasil'ev P.V., Butko A.A. Analysis of deformation of rock mass and formation of gas collector in mined-out void of coal bed under mining..... | 171 |
| Economics and management | |
| Galiev Zh.K., Galieva N.V., Mosunova K.O. Economical and theoretical aspects of marketing at the mining enterprises | 180 |
| Galieva N.V., Bagautdinov V.Sh., Korochkin G.V., Parshin N.O. Development prospects for nonmetal construction materials industry | 187 |
| Kosterenko V.N., Timchenko A.N., Vorob'eva O.V. Analysis of causes of accidents to improve occupational safety control efficiency in mines | 194 |
| Mardenov M.P. and prospects of coal production in Republic of Kazakhstan | 200 |
| Nikitenko S.M., Goosen E.V. Integrated development of natural resources on the basis of public-private partnership | 203 |
| Novoselov S.V. Formation evaluation criterion system of functioning of regional fuel and energy complex..... | 209 |
| Khudyakova E.V. Problems of formation and functioning of organizational-economic mechanism for crisis prevention in small and medium-sized industrial enterprises in Russia in modern conditions | 213 |
| Technology | |
| Snitsar M.A., Samedov A.M. On calculation of foundations on swelling soil when moistened with hot water | 221 |

Measuring, control, diagnostics

- Dadiev M.N.** Integrated geomechanical monitoring in uranium mines in Transbaikalia226
- Kamshilin A.N., Kaznacheev P.A.** Active geoelectrical and seismoelectrical monitoring of state of the geological environment234
- Nevedrova N.N., Sanchaa A.M., Shalaginov A.E., Ponomarev P.V., Rohina M.G.** Characteristics of the active fault structures according geoelectrics controlled source243
- Chernih E.N., Shubin G.V., Zarovnyaev B.N.** About use of scraper on alluvial deposits.260

Automation and information systems

- Valuev A.M.** Unified approach to modelling and control of technological transport268
- Kubrin S.S., Samarina N.N.** The industrial safety process control system control software for «undeclared capabilities random access memory»277

Mathematical modeling

- Balkhanov V.K., Bashkuev Yu.B., Angarkhaeva L.Kh.** Spatial characteristic of attenuation function in terms of the lake Sulfat281

Electrification mining enterprises

- Bui Trung Kien, Kubrin S.S.** Restearch, develophment of monitoring system and control high-voltage cabinets 6kV in the central distribution substation in mining enterprises286
- Malinovskiy A.K.** Analysis of emergency stop mode of mine hoist when conveyance going down is jammed292
- Fashilenko V.N., Reshetnyak S.N.** Configuration of the parameters of the PID-controller with energy efficient resonant mode of operation297

Ecology and safety exploration of mineral resources

- Grekhnnev N.I., Lipina L.N., Usikov V.I.** To question of assessing ecological risk using method remote sensing of the Earth302
- Pesterev A.P.** Ecological conditions of soils in the zone of construction of espo309
- Pesterev A.P., Chemezov E.N.** Assessment of the state of environment of the pool of the stream morgogor313

Explosive works

- Akinin N.I., Annikov V.E., Mikheev D.I., Soboleva L.I., Derzhavets A.S., Brigadin I.V., Doroshenko S.I.** About features of detonation and impact on rock by powder water gel explosives318
- Labutin V.N., Markov V.S.** Prospects of application of combined method destruction of rocks325

Oil and gas

- Krapivskiy E.I., Minnegulova G.S., Sadykova R.M.** Economic analysis of lhg-mix pipeline transportation project (major pipeline transport of liquefied hydrocarbon gas mixture)333
