CONTENT

Geotechnology (underground, open and construction)

Vitkalov V.G., ***Pham Duc Thang***, ***Nguyen Anh Tuan*** Justification of layout and process solution in high-rate tilted medium-thick coal bed mining with articulated shield-type support in mines in Quang Ninh 5

Kubrin S.S., ***Reshetnyak S.N.***, ***Aleshin A.A.*** Geoinformation support of hydrocarbons transport from Arctic shelf 14

Sokolov I.V., ***Antipin Yu.G.***, ***Baranovskiy K.V.***, ***Gobov N.V.*** Experimental research of hybrid mining system for tilted deposit of quartz 21

Smirnov A.V., ***Averin A.P.*** Stability of underground entries in complicated mining and geological conditions 28

Shashenko A.N., ***Smirnov A.V.***, ***Khozyaykina N.V.*** Initial stress field estimation in underground mine planning 37

Krotenok A.Yu., ***Shurygin D.N.***, ***Litovchenko T.V.***, ***etc.*** Photogrammetry of images of air drones and ground-based laser scanning in open pit mine planning 50

Geomechanics

Alekseev K.N., ***Kurilko A.S.***, ***Zakharov E.V.*** Influence of basalt fiber on viscosity and rupture energy of finely grained concrete 56

Patutin A.V., ***Rybalkin L.A.*** Pressure meter testing of rocks in nonuniform stress field 64

Tedeev T.R., ***Teziev T.M.*** Influence of load potential on moisture permeability of soil 70

Geoecology of mining industry

Krylov D.A. Negative effects of impurities from coal-fired thermal power stations on the environment and health 77

Rastanina N.K., ***Krupskaya L.T.***, ***Golubev D.A.***, ***Cherentsova A.A.*** Evaluation of health risk due to pollution with waste of the abandoned Khrustalnensky Mining and Processing Plant 88

Mining industrial geology

Karibzhanova E.L., ***Safronov A.E.***, ***Skryabin O.O.***, ***Semenyaka V.V.*** Geological effects on production performance of open pit coal mines 96

Markshadering

Solodovnik A.I., ***Shurygin D.N.***, ***Litovchenko T.V.***, ***etc.*** High-precision satellite leveling and analysis of local model of quasi-geoidal rise in the territory of Russia 109

Mining geophysics

Gupalo V.S. Assessment of long-term change in penetrability in the induced and natural jointing zone near underground high-active waste disposal 115

Eremenko Yu.I., ***Glushchenko A.I.***, ***Fomin A.V.*** Application of neural network customizer for the proportional-integral controller in the mode of response to disturbances at thermal units in the mining and metallurgical industry 122

Mining machinery and equipment

Trung Kien, ***Kubrin S.S.***, ***Tong Thi Phuong*** Monitoring and automated control of main conveyor lines in mines 134

Gorlov I.V., ***Rakhutin M.G.*** Effect of the presence of stumps on no-failure performance of peat harvesting machines 139

Kutkin Ya.O., *Krasilov M.N.*, *Nasibullin R.R.* Development of an installation for the study of rock properties under dynamic influences 146
Poleshchenko D.A. Commercial operation experience of automated monitoring of filling level in ball mills 153

Enrichment of minerals

Karibzhanova E.L., *Misyura M.M.*, *Savon D.Yu.*, *Safronov A.E.* Improvement of mineral processing and deep conversion technique 161
Medvedev A.A., *Poserenin A.I.* Neutron activation analysis of scandium in rocks using installations based on powerful nuclide sources of neutrons 170
Pestryak I.V., *Morozov V.V.* Modeling and analysis of copper ion effect on molybdenite floatability 176
Slavov V.I. Symmetry of orientations and systems of crystal twins 183
Khalapyan S.Yu., *Anpilov A.O.* Application of neural network technologies to indirect measurements in the iron ore concentrate dewatering control 195

Production organization and management in mining

Frankevich Zh.A., *Knyazeva T.M.* Methods of economic analysis quality enhancement in mineral mining feasibility study 201

Industrial safety and labor protection in mining

Alekseev A.M., *Petrova L.V.*, *Sivtseva A.I.* Analysis of labor conditions in the mining and processing industry in the Republic of Sakha (Yakutia) 207

Special editions GIAB

Khakulov V.A., Khatukhova D.V. Perfection of designing of technology for formation of a stream mountain mass by size for boulder-sandy-gravel open-cast mines on basis of remote monitoring of process excavation 95

Deposited manuscripts

Kozhevnikov N.A., Petrov G.M. To the question of providing a variety of grounding systems in electric networks of industrial enterprises with voltage up to 1 kV 214
