## Technical science

<i>Kalmykov V.N., Petrova O.V., Mambetova Yu.D.</i> Justification of parameters of technological resources for stable performance of geotechnical system in underground pyritic-copper ore mining.....	5
<i>Alekseev O.N.</i> Load-haul-dumper PD-2E, operation and maintenance experience.....	17
<i>Vishnyak B.A., Morozov V.V., Nikolaeva T.S.</i> Integrated model-oriented control over team of drying and screening equipment.....	22
<i>Evseev V.N., Varenichev A.A.</i> Auto Dump quarries.....	30
<i>Zhevnerov V.A., Zhevnerov E.V.</i> Feasibility of remote control over stressful conditions for representatives of hazardous occupations.....	37
<i>Zhevnerov V.A., Zhevnerov E.V.</i> Innovation technology for improving working efficiency of representatives of hazardous occupations.....	42
<i>Kuzin E.G., Gerike B.L.</i> Technical diagnosis of mine belt conveyor gearbox.....	47
<i>Maksarov V.V., Khalimonenko A.D.</i> Effect of structural parameters of cutting ceramics on tool efficiency in precision processing of surfaces of mining machine parts.....	56
<i>Malakhov V.A., Tropakov A.V., Tubutarov R.I.</i> Comparative research of tribological behavior of plastic lubricants used in mining and haulage machines for the purpose of import substitution.....	65
<i>Subbotina E.V.</i> Management development of economic systems of mining industrial enterprises.....	71
<i>Khalkechev R.K., Khalkechev K.V.</i> Fractal models of strained-deformed state of rock mass as basis of the automated control system for technological process of mining of heavy oil.....	76
<i>Shurygin D.N., Litovchenko T.V., Zaika A.A., Dobrovolskiy V.A.</i> Substantiation of multi-dimensional statistical uniformity criterion for a coal deposit area.....	83
<i>Shurygin D.N., Litovchenko T.V., Zaika A.A., Dobrovolskiy V.A.</i> Geometrization of indexes based on the principles of real-model experiment and euristic self-organization of mathematical models of complex system.....	89
<i>Shurygin D.N., Litovchenko T.V., Zaika A.A., Dobrovolskiy V.A.</i> Geometrization of physical properties of rocks based on inverse problem solution on state of geophysical parameters.....	95

## Earth sciences

<i>Kalmykov V.N., Gogotin A.A., Ivashov A.N., Mambetova Yu.D.</i> Basic underground mine planning provisions for a group of closely spaced deposits.....	101
<i>Koltyshev V.N., Shipeev O.V., Filippov V.N.</i> Features of ore mining with backfilling under conditions of rockburst hazard.....	107
<i>Matveeva T.N., Gromova N.K., Lantsova L.B.</i> Adsorption of plant extract components by sulfide minerals in complex gold ore flotation.....	113
<i>Bekpulatov Zh.M.</i> Application technique for ion-exchange resins in gold recovery from ore.....	121
<i>Osipova N.V., Samoylova V.T.</i> Review of the methods of process optimization and control of magnetic separation of iron ore.....	126
<i>Serafimova L.I., Naumenko V.G.</i> Features of dehydration of finely dispersed coal flotation concentrates.....	131
<i>Temkin I.O., Do Chi Thanh, Agabubaev A.</i> Enhancement of safety in Veitnam mines with high methane content using models of prediction analytics.....	142
<i>Fedorova L.L., Kulyandin G.A., Sokolov K.O.</i> GPR evaluation of moisture content of rocks.....	152

## Journal in journal

<i>Ivanov S.I., Titov N.V., Tkachev V.A., Privalov A.A.</i> Protection of mine workings by pliable pillars.....	159
<i>Tkachev V.A., Titov N.V., Khakulov V.A., Ivanov S.I.</i> Methods of development and heading with broken rock left in stopes.....	167
<i>Ivanov S.I., Titov N.V., Tkachev V.A., Privalov A.A.</i> Mining systems for medium-thick and thin beds by longwalling along the strike with broken rock left in roadways.....	174
<i>Pleshko M.S., Nasonov A.A., Yagodkin F.I., Privalov A.A.</i> Issues of improvement of vertical shaft planning, construction and reconstruction efficiency .....	179
<i>Posyl'nyy Yu.V., Vyal'tsev A.V., Popov V.V., Yagodkin F.I.</i> Application of the gaussian function to approximation of the earth's surface subsidence curves.....	187
<i>Posyl'nyy Yu.V., Vyal'tsev A.V., Bogush I.A., Popov V.V.</i> Transformation of actual distribution of ground subsidences to typical distribution.....	195
<i>Posyl'nyy Yu.V., Vyal'tsev A.V., Kalinchenko V.M., Bogush I.A.</i> Extrapolation of ground subsidences in movement trough in case of unavailable data of instrumental measurements in the boundary zone of movement .....	204
<i>Privalov A.A., Khakulov V.A., Popov V.V., Yagodkin F.I.</i> Geomechanical processes in rock mass adjacent to mine workings .....	212
<i>Privalov A.A., Popov V.V., Yagodkin F.I., Khakulov V.A.</i> Increase in the rate of mine drivage.....	219
<i>Tretyak A.Yu., Popov V.V., Grossu A.N., Borisov K.A.</i> Innovative approaches to designing highly efficient rock-breaking tool .....	225

## Works of young scientist

<i>Yorokhov S.A.</i> Selecting method to ensure electromagnetic compatibility between electric drive and self-contained power supply .....	231
--	-----

## Special editions GIAB

<i>Nahangov Kh.N.</i> Research of optimal parameters of the arrangement of teeth of roller bit in terms of bottom hole.....	100
<i>Team of authors.</i> Ecology and safety of mining minerals.....	112
<i>Malinovskiy A.K.</i> Comparative analysis of different methods of control safety brake of mine hoist machines .....	218

## The deposited manuscripts

<i>Kondratenko V.E., Devyatyarova V.V.</i> Justification of design scheme shaft lining for shafts operated under sizable strains of containing rock mass conditions .....	36
<i>Slobodyanik T.M.</i> Belt gear design for mining machines.....	46
<i>Slobodyanik T.M.</i> Research on influence of design data of conveyors on force parameters .....	82
<i>Slobodyanik T.M.</i> Research on influence of design data of conveyors on kinematic parameters.....	235
