

CONTENT

<i>Tkach S. M.</i> Studies of the Chersky N. V. Mining Institute of the North to improve the geotechnologies, methods and tools for the efficient development of subsoil in permafrost	5
<i>Alekseev K. N., Kurilko A. S.</i> Fine-grained and high-impact fiber-reinforced concrete for application in underground mines in permafrost zone	15
<i>Alkova E. L., Panishev S. V., Maksimov M. S.</i> The influence of the weight percentage of the fine and coarse fractions on the excavability index of broken frozen rock mass	29
<i>Batugina N. S., Khoiutanov E. A., Tkach S. M.</i> Influence of the ratio between amount of overburden and unit of gold produced on the efficiency of gold placer mining	39
<i>Vinokurov V. R.</i> Dry impact milling of Maly Taryn gold ore	48
<i>Vorsina E. V., Moskalenko T. V., Mikheev V. A.</i> Methods of alkaline activation pretreatment of lignite for production of adsorbents	59
<i>Galimyanov A. A., Sobolev A. A.</i> Effect of coal mining depth on drilling-and-blasting performance at Uralugol	69
<i>Gurman M. A.</i> Flocculation of suspended solid in gold placer process water	76
<i>Zubkov V. P., Petrov D. N.</i> Effect exerted by tilt angle of broken layer of freezing ore on production losses in sublevel stoping under negative temperatures	85
<i>Kiselev V. V., Khokholov Yu. A.</i> Mechanical melioration of geomaterials for making safety cushions in mined-out open kimberlite pits and prediction of temperature–humidity conditions of the cushion in the permafrost zone	96
<i>Kostiunina O. A., Shevkun E. B., Leshhinskij A. V.</i> Effect of delay intervals on fragment dispersion	107
<i>Lavrik A. V., Konareva T. G., Rasskazova A. V.</i> Recovery of submicron encapsulated gold from rebellious ore of Delken deposit	121
<i>Lvov E. S.</i> Gold dissociation and recovery from crushed gold-bearing quartz ore	129
<i>Maksimov M. S., Panishev S. V., Alkova E. L.</i> Effect of size of inclusions on shearing strength of frozen rock samples	139
<i>Moskalenko T. V., Mikheev V. A., Vorsina E. V.</i> Demineralization of Kharanor lignite	148
<i>Odintsev V. N., Trofimov V. A., Filippov Yu. A., Shipovskii I. E.</i> Geomechanical model of formation of sinkholes on ground surface in the permafrost zone	159
<i>Rasskazov M. I., Tereshkin A. A., Tsoi D. I., Konstantinov A. V., Sidlyar A. V.</i> Assessment of geomechanical behavior of rock mass by the data of seismic monitoring with acoustic sensing at rockburst-hazardous deposits	167
<i>Romanova E. K.</i> Prediction of thermostabilization of wet slide rocks at the bottom of open pit mine in the permafrost zone using seasonal coolers	183
<i>Struchkova G. P., Krupnova T. G., Tichonova S. A., Kapitonova T. A.</i> Snow cover pollution analysis in coal mining regions using color response curves	195

<i>Tereshkin A. A., Rasskazov M. I., Tsoi D. I., Konstantinov A. V., Anikin P. A.</i> Thermographic study of rock samples in dynamic fracture.....	204
<i>Tikhonova S. A., Struchkova G. P., Kapitonova T. A.</i> Manmade pollution assessment in water bodies in Yakutia using color response curves and satellite images	213
<i>Fedorov V. I., Gavrilov V. L.</i> Change in particle size distribution of low-rank coal in long-term storage	223
<i>Fedorov L. N., Fedorov I. V.</i> Increasing number of drill bits using braze and wedge soldering engagement.....	233
<i>Fedorova L. L., Kulyandin G. A., Poiseeva S. I.</i> Structural investigation of waste piles by radiolocation.....	243
<i>Shevkun E. B., Leonenko N. A., Plotnikov A. Yu.</i> Loosening blasting of rocks at extended delay intervals	255
