

CONTENT

Geomechanics, Rock failure

Ananenko E.V., Bakhaeva S.P. Nazvanie	5
Marinin M.A., Karasev M.A., Pospekhov G.B., etc. Engineering and geological parameters for heap leaching of gold from low-grade sandy clay ores: a feasibility study	22
Sajjidkosimov S.S., Raimdzhанov B.R., Umarov F.Ya., Rahimova M.H. Predictive stress–strain analysis of tailings dams from 3D FEM-based model	38
Sergunin M.P., Eremenko V.A. Application of artificial intelligence algorithm in processing structural geological models	56

Geotechnology

Khakulov V.A., Shapovalov V.A., Ignatov V.N., etc. Improving methodology of monitoring geomechanical behavior and property transformation in rock mass toward safe and efficient geotechnology	68
Chaplygin V.V., Sadykov A.A., Matveev A.V. Nazvanie	84

Mine aerogas dynamics, Mining thermophysics

Starikov A.N., Maltsev S.V., Isaevich A.G. Nazvanie	99
--	----

Enrichment of minerals

Dvoichenkova G.P., Timofeev A.S., Podkamenny Yu.A. Pilot test data on corrosion resistance of nitrided ferrosilicium in long-term contact with mineralized water	114
Rasskazova A.V., Sekisov A.G., Rasskazov M.I. Nitrate–nitrite–nitric oxidation of porphyry copper ore with subsequent activated sulfuric acid-and chloride leaching of copper and noble metals	130

Geoinformatics

Vasilev B.Yu., Mustafin M.G. Digital relief models of open-pit mining facilities: Analysis and optimization	141
Serebriakov E.V., Gladkov A.S., Gapfarov T.D. Modern methods of data collection for structural damage assessment in rock mass: Review	160
