Kotin D. A., Sukhinin S. E., Ivanov I. A. Synthesis of regulators of the belt conveyor speed control system	5
Neyman L. A., Neyman V. Yu. Universal dynamic model of a double-acting impact electromagnetic drive	22
Neyman V. Yu. , Neyman L. A. Selection of the main dimensions of the electromagnetic impact machine with a through axial channel	38
Blanc A. V. The lattice equivalent circuit of the DC motor in mine lift-and-carry transfer mechanisms.....	52
Efimova Yu. B. Selecting a voltage source for a linear electromagnetic press under the mining enterprise.....	64
Shchurov N. I., Dedov S. I., Shtang A. A. , Wu Xiaogang Simulation of lithium battery degradation processes of the dump truck with electric drive.....	76
Dedov S. I., Abramov E. Yu., Wu Xiaogang Synthesis of mining battery vehicle charging system simulation model based on GB/T standart.....	91
Myatezh S. V., Lisitsyn P. S. Construction of multi-level inverters for an autonomous power supply system for responsible electric receivers of mining industry enterprises.....	110
Kuznetsov S. M., Singizin I. I., Borzenkov A. N., Rozhkova M. V., Andriyashin S. N. Research of parameters of the traction network of electric locators of mining enterprises.....	127
Porsev E. G., Borzenkov A. N., Abramov E. Yu., Chernov A. A., Rozhkova M. V. The use of electrokinetic phenomena in the autonomous generation of electrical energy in geological exploration	141
Stepanov A. A., Singizin I. I., Latyshev R. N. Application of energy-efficient rectifiers of traction substations of railway quarry transport.....	156
Andriyashin S. N., Kravchenko D. P., Latyshev R. N. The development of facilities for verification of mining electric vehicle charging stations according to the CHAdeMO standard	177
Andriyashin S. N., Kravchenko D. P., Borzenkov A. N. The development of a dual-mode electric vehicle supply equipment according to the CHAdeMO standard	196
Spiridonov E. A. Technical and economic efficiency of the application of lithium-titanate batteries in quarry railway transport.....	214
Kapustin A. V., Shchurov N. I. Improving the energy efficiency of the electric traction drive of a haul truck.....	229
Shchurov N. I., Filina O. A., Malozyomov B. V. Increasing the reliability of the traction electric motor of a mining dump truck for the coal industry	245
Filina O. A., Malozyomov B. V., Lisitsyn P. S. Increasing the efficiency of diagnostics of the brush-collector assembly of mining dump trucks.....	261
Gurov M. G., Gurova E. G. Multi-channel optical radiation frequency stabilization system in geopositioning systems of mine surveying and geodetic equipment.....	280
Latyshev R. N., Abramov E. Yu. , Chernov A. A., Kravchenko D. P. The development of a system for charging electric vehicles with alternating current in the mining industry	292

Temlyakova Z. S., Vilberger M. E., Grechkin V. V., Temlyakov A. A., Malozyomov B. V. Evaluation of additional losses of an asynchronous motor for electrical equipment of the mining industry ...	312
Shumilova L. V., Khatkova A. N., Razmakhnin K. K., Prostakishin M. F. Cyanide-free gold extraction technology using methods of intensification of the leaching process.....	328
Vnukov S. A., Shtang A. A., Latyshev R. N. Simulation of efficient power installation of wheeled dumper	345
Razmakhnin K. K., Khatkova A. N., Shumilova L. V. Improving the quality of zeolite-containing rocks of the Eastern Transbaikal region on the basis of the application of directed energy impacts	361
