

CONTENT

Geomechanics, Rock failure

- Vysotin N.G., Vinnikov V.A.** A case history of modeling elastic hysteresis of different-genotype rocks based on the Preisach model 5
- Blokhin D.I., Zakorshmenniy I.M., Kubrin S.S., etc.** Numerical research of effect of stress-strain changes on stability of gas drainage wells in coal-rock mass 17
- Demenkov P.A., Romanova E.L., Kotikov D.A.** Stress-strain analysis of vertical shaft lining and adjacent rock mass under conditions of irregular contour 33
- Karasev M.A., Posphehov G.B., Astapenko T.S., Shishkina V.S.** Stress-strain behavior prediction models for weak manmade soil 49
- Nazarov L.A., Golikov N.A., Skulkin A.A., Nazarova L.A.** Method of experimental determination of deformation and flow characteristics in rocks with regular block structure 70

Geotechnology

- Borovkov Yu.A., Derevyashkin I.V., Merzlyakov V.G., Bludov A.N.** Effect of structure and mining depth on hydraulic cutting velocity in rocks 82
- Eremenko A.A., Koltyshev V.N., Uzun E.E., Khristolyubov E.A.** Rock mass structure assessment on the distress borehole surface in rock pillar in Sheregesh Mine 91

Geoecology

- Moshchenko D.I., Kuzina A.A., Kolesnikov S.I., Kazeev K.Sh.** Experience of determining regional ecologically safe copper concentrations in soils at a copper mine 102

Mining machinery

- Galkin V.I., Dobler M.O., Dyachenko V.P.** Justification of design factors for linear cable-stayed section of overhead wire rope conveyor of RopeCon® type 115

Enrichment of minerals

- Phyoe Kyaw Kyaw, Kyaw Zaya Ya, Goryachev B.E.** Effect of composition of metal-bearing surface modifiers for sulfide minerals of base heavy metals in copper-zinc ore flotation 128
- Shumilova L.V., Khatkova A.N., Razmakhnin K.K.** Oxidation of carbon-bearing compounds and gold recovery from difficult minerals 143

Energetics and energy efficiency of mining industry

- Sychev Y.A., Aladin M.E.** Overall performance analysis of general-purpose power quality controls on the basis of active converters in nonlinearly loaded industrial power lines 159
