Technosphere safety in mining industry

- Zakharov V.N., Dokuchaeva A.I., Malinnikova O.N.** Fidelity of evaluation criteria for spontaneous combustion liability of coal from Pechora and Kuznetsk fields5

Geotechnology

- Murko V.I., Baranova M.P., Papchenkov A.I.** Development and substantiation of technological facility of coal mining and processing16

- Cheban A.Yu., Litvinova N.M., Konareva T.G., etc.** Improvement of pretreatment and extraction technologies for contrast ore in mining structurally complex deposits.....28

Geomechanics, Rock failure

- Kolotovkin A.S., Zelenin D.P., Levchenko Ya.V.** Blast-induced damage zone studies in sedimentary rock mass.....41

- Trushko V.L., Baeva E.K.** Substantiation of rational parameters of mine support system for underground roadways in difficult geological conditions55

- Tyupin V.N.** Delay intervals for quality fragmentation of jointed rock mass by blasting in open pit mines70

Geocology

- Lebedev A.B., Konkin S.N.** Application of red mud as admixture for concrete and ceramics.....79

Mining industrial geology, Mining geophysics

- Tedikova A.A., Klimochenkov M.D., Melnichenko I.A., etc.** Geoinformation model construction for manmade deposits to obtain additional sources of mineral raw materials96

Mining machinery

- Sazankova E.S., Berdyugin I.A.** Aramid conveyor belts as an alternative of steel cord rubber belts 111

Enrichment of minerals

- Aleksandrova T.N., Prokhorova E.O.** Modification of properties of rock-forming minerals during flotation.....123

- Htet Zaw Oo, Kyaw Zay Ya, Goryachev B.E.** Effect of iron/zinc vitriol–sodium sulphide blends on copper–zinc sulphide ore flotation.....139

- Shumilova L.V., Khatkova A.N., Razmakhnin K.K., Prostakishin M.F.** Processing technology for old tin-bearing polymetallic tailings at Sherlovaya Gora GOK152

Theoretical bases of designing of mining-technical systems

- Fomin S.I., Govorov A.S.** Validation of the chosen cutoff grade value in open pit mine design.....169
