

CONTENT

Geoinformatics

<i>Stepanov I.Yu., Dorn E.V., Stepanov Yu.A.</i> Preparation of initial seismic data for modeling tectonic fault in coal body.....	5
--	---

Geotechnology

<i>Sasan Heydari, Seyed Hadi Hoseinie, Raheb Bagherpour</i> A new empirical model for prediction of jumbo drills' penetration rate in underground mines based on the rock mass characteristics	17
--	----

Geomechanics, Rock failure

<i>Volokhov E.M., Britvin I.A., Kozhukharova V.K.</i> Reliability of ground surface movement prediction in construction of stationary facilities in deep subways.....	36
---	----

Mine aerogas dynamics, Mining thermophysics

<i>Kolesov E.V., Semin M.A.</i> Abatement of the effect of slug in ventilation shafts by means of condensed moisture control and ventilation system management in mines.....	62
--	----

Geocology

<i>Sareu N.Yu.</i> Effectiveness of removing heavy metals from groundwater.....	79
<i>Timoshenko A.N., Kolesnikov S.I., Evstegneeva N.A., etc.</i> Impact of platinum production on ecology of brown forest soil	90
<i>Fomenko B.A., Makovozova Z.E., Sokolov A.A., etc.</i> Analysis of induced seismic background at Unal tailings pond by express-methods	104
<i>Shabanov M.V., Marichev M.S., Minkina T.M., etc.</i> Inflow of heavy metals to depositional environments at Karabash geotechnical system.....	117

Mining machinery

<i>Linnik Yu.N., Linnik V.Yu.</i> Mutual influence of loads on cutting picks at different coal cutting parameters.....	133
--	-----

Technosphere safety in mining industry

<i>Klyuev R.V., Martyushev N.V., Kukartsev V.V., etc.</i> Analysis of geological information toward sustainable performance of geotechnical systems	144
---	-----

Energetics and energy efficiency of mining industry

<i>Korolev N.A., Zhukovskiy Y.L., Buldysko A.D., etc.</i> Energy resource evaluation from technical diagnostics of electromechanical devices in minerals sector.....	158
--	-----
