

CONTENT

Geocology

- Shaikhislam G., Solovev T.M., Epstein S.A., etc.** Soil production from oxidized bituminous coal for biological reclamation of disturbed land 5
- Manikovskiy P.M., Ovcharenko N.V., Gushchina T.O., Sidorova G.P.** Ecological evaluation of ash and slag dumps for their differential processing: A case-study of Kharanor Hydropower Plant..... 19
- Fomenko V.A., Lolaev A.B., Sokolov A.A., etc.** Selected results of geoecological monitoring of Unal tailings dump topography..... 38

Geotechnology

- Marinin M.A., Posphehov G.B., Sushkova V.I., etc.** Experience of trial percolation in heap leaching pile of sandy-clayey rocks..... 51

Geomechanics, Rock failure

- Protosenya A.G., Tretenkov I.V., Tulin P.K., Shubin A.A.** Method to predict rock displacements around development galleries at great depths in coal mining 63
- Sizin P.E.** Conductivity of geological environment with plane-parallel system of joints 79

Mining machinery

- Kuzin E.G., Gerike B.L., Zakharov A.Y.** Limiting state models for drive ends of belt conveyors..... 93

Enrichment of minerals

- Dvoichenkova G.P., Timofeev A.S., Nikitina Yu.N.** Stimulation of heavy-media separation of diamond-bearing material by improvement of ferrosilicium corrosion resistance and produced rough concentrate quality 108
- Zatonskiy A.V., Bekker V.F., Saramaga Yu.O.** Feed density control in rod drum mill at sylvinitic ore milling stage..... 125
- Htet Zaw Oo, Kyaw Zay Ya, Goryachev B.E.** Modeling and optimization of compositions of three-component modifier mixtures by simplex planning method to analyze their effect on the flotation of copper-zinc pyrite ores..... 141

Energetics and energy efficiency of mining industry

- Petrov V.L., Pichuev A.V.** Simulation modeling of hybrid regenerative braking method for variable frequency asynchronous motors in underground electrical networks..... 153

Production organization and management in mining

- Nikitenko S.M., Pavlova L.D., Korneva A.V., etc.** Formation and control of value chains in coal industry based on emerging technologies 163
