

CONTENT

Mine aerogasdynamics, Mining thermophysics

- Trushkova N.A., Levin L.Y., Zaitsev A.V.* Inclusion of aerodynamic characteristics of ventilation systems in determination of recirculating ventilation parameters5

Geotechnology

- Nikolaev P.V., Tarasov V.V.* Present approaches to structural assessment of concrete lining in vertical mine shafts: Review17
- Paramonov S.S.* Digital mapping of subway tunnels using special facilities32

Geomechanics, Rock failure

- Karasev M.A., Petrushin V.V.* Methodological issues in determination of initial parameters for modeling deformation of rock salt as a polycrystalline discrete medium.....47
- Kutepov Yu.Yu.* Hydro-geomechanical substantiation of pit wall stability for liquid industrial waste disposal.....65
- Tyupin V.N.* Design method for perimeter control blasting in jointed rock mass at open pit mines.....78

Geocology

- Abdrazakh Auyeshov, Chaizada Eskibayeva, Kazhmukhan Arynov, Alexandr Kolesnikov* Aspects of waste recycling problems in chrysotile asbestos industry88
- Frunzikyan H.B., Margaryan V.G., Karyan V.H., Asatryan V.L.* Assessment of ecological condition of surface water bodies. A case-study of the Northern Basin Management Area, Armenia99

Mining industrial geology, Mining geophysics

- Gapeev A.A., Cherepetskaya E.B., Kudinov I.A., etc.* Frequency dependence of permittivity and conductivity of reservoir rocks.....117
- Mindubayev A.B., Portnov V.S., Kim V.O., Sadchikov A.V.* 3D geological modeling of coal seams in the Karaganda Coal Basin.....129
- Razumov E.E., Prostov S.M., Petrova O.A.* Implementation of comprehensive geomechanical analysis procedure in mining a coal seam142

Mining machinery

- Zyryanov I.V., Nepomnyashchikh K.A., Trufanov A.I., etc.* Concept of mining haulage equipment failure prediction based on network analysis.....160
