

CONTENT

Geomechanics, Rock failure

Ananenko E.V., Bakhaeva S.P. Assessment of influence of loads and impacts on stress-strain behavior of natural-technical dump-its foundation system..... 5

Kosyreva M.A., Eremenko V.A. Physical modeling of stress-strain behavior of honeycomb mine structures composed of vertical cylindrical stopes..... 22

Mine aerogas dynamics, Mining thermophysics

Levin L.Y., Sukhanov A.E., Isaevich A.G., Kozunin I.I. Experimental research of dust condition in blind drift versus applied ventilation method in machine mining of potash 35

Geoecology

Abdrakh Auyeshov, Chaizada Eskibayeva, Kazhmukhan Arynov, etc. Physico-chemical studies of nemalite-containing chrysotile asbestos from the Zhitikarinsky deposit..... 51

Mining machinery

Krasuk A.M., Rusky E.Yu., Kolotov S.A., etc. Torsional vibrations of rotors of axial mine fans with two impellers..... 62

Shishlyannikov D.I., Gribov D.S., Prosovskiy K.A., etc. Test bench and studies of rock fracture mechanism in cutting potassium blocks..... 78

Geoinformatics

Voronin R.P., Shibaeva D.N., Bulatov V.V., Asanovich D.A. Mineral mapping system development: Improved accuracy of actual sizing of mineral spots on core surface 92

Kholodilov A.N., Istomin R.S., Kirilenko V.I. Improvement technique for manufacturing equivalent materials for modeling nonlinear geomechanical processes in underground mineral mining 108

Technosphere safety in mining industry

Konyukhov V.Yu., Oparina T.A., Matasova I.Y., etc. Ecologization of underground coal mining by means of ash use in backfill preparation 123

Myakov V.V., Korshunov G.I., Kabanov E.I., Rodionov V.A. Prediction and analysis model of explosive and inflammable gas accumulation in air in oil mines 136

Energetics and energy efficiency of mining industry

Sofronov M.A., Petrov V.L. Prospects for solar power plants in electricity supply systems in mines..... 152

Production organization and management in mining

Razmakhnin K.K. Concept of closed-loop economy in mining waste management in the Krasnodar Krai: Technological and institutional aspects..... 166
