

CONTENT

Geoecology

- Kutepov Yu.I., Kutepova N.A., Mukhina A.S.* Problems and prospects of using industrial waste in mine reclamation5
- Apakashev R.A., Malyshev A.N., Lebzin M.S., Kurmacheva V.S., Gordeeva Yu.F.* The effect of environmental acidity on copper (II) ions desorption from natural sorbents22
- Prokopyeva A.A., Degtyarev S.A., Boltyrov V.B., Shaikhutdinova M.M., Storozhenko V.A.* Assessment of heavy metal pollution degree at the Levikha mine dumps34
- Sobenin A.V., Antoninova N.Yu., Gorbunov A.V., Yakupov D.R.* The use of industrial waste in removal of heavy metals from wastewater47
- Yurak V.V., Akseniyushkina M.V., Zavalov S.S., Vlasov I.A.* Levikha tailings dam wastewater: Selection of treatment and utilization methods.....67

Geotechnology

- Zubov V.P., Trofimov A.V., Kolganov A.V.* Influence of ground control features on indicators of dilution in mines of the Talanakh ore province.....87
- Serzhan S.L., Malevannyj D.V.* Lifting technologies for deep-sea solid mineral extraction facilities: Current situation and prospects.....107

Geomechanics, Rock failure

- Bagautdinov I.I., Streshnev D.A.* Effect of structural disturbance on stability of pillars in geological conditions of apatite–nepheline deposits.....129
- Belyakov N.A., Emelyanov I.A.* Inclusion of rock mass fracturing in determination of in situ stress state by overcoring using multi-component displacement sensor.....145
- Borzenkov A.N.* Efficiency of conveyors in mining and transport systems in mines165
- Posphehov G.B., Yusmira Savón-Vaciano* Landslide hazard assessment in preliminary exploration of mineral deposits in north-eastern Cuba178

Mine aerogas dynamics, Mining thermophysics

- Vasilenko T.A., Kirillov A.K.* Role of closed porosity in formation of phase states of methane in coal seams.....193

Mining industrial geology, Mining geophysics

- Kotlov S.N., Tselishev N.A.* Assessment of drainability of overlying undrained water-bearing stratum using mine up-holes213
- Petrov D.N., Abashin V.I., Karasev M.A., Selikhov A.A.* Non-destructive testing applicability in rock mass strength estimation in underground mine at the Gremyachinsk deposit227

Markshading, Geometry of subsoil

- Gurov M.G., Gurova E.G.* Narrow beam atomic oven in vacuum device systems for reproducing ultra-stable frequency standard for surveying and geodetic positioning equipment.....245

Enrichment of minerals

- Morozov Yu.P., Uporova I.V., Mamonov R.S.* Improvement of flotation efficiency on the basis of additional pulp aeration by spring-type diffusors258
- Fedorov S.A., Davydov S.Ya., Popov M.P., Makarov V.N., Utkina G.M.* The influence of roasting temperature on mineral composition of chrysotile asbestos processing tailings.....270

Energetics and energy efficiency of mining industry

- Abramov E.Yu.* Calculation of setting limits for electric traction network of mining locomotives286
- Biryukov V.V., Malozyomov B.V., Shchurov N.I., Singizin I.I., Latyshev R.N.* Energy efficiency of electric machines with pneumatic tires in open pit mineral mining301
- Vnukov S.A., Kravchenko D.P., Chernov A.A., Rozhkova M.V.* Mine electrification: Status and future potentials316
