Enrichment of minerals

- Chanturia V. A., Dvoichenkova G. P., Timofeev A. S.** Experimental validation of material and operation modes of electrode units for electrochemical conditioning of higher hardness and mineralized chloride-containing water 5
- Akhmetshin E. A., Klimkin I. A., Plechov P. Yu., Petrova O. B.** Enhancement of raw semi-precious gemstones as a special type of processing of nonmetallic mineral resources 21

Geotechnology

- Dorosh E. A., Tal'gamer B. L.** Impact of rock moisture on truck-and-shovel operation efficiency in placer mining 40

Geomechanics, Rock failure

- Eremenko V. A., Bragin A. A., Gridin D. Yu., Byrylova E. K., Yurina S. V.** Laser scanning-based true condition of mine shaft and its lining 53
- Lebedev M. O., Sammal A. S., Deev P. V., Antsiferov S. V.** Assessment of impact of induced stress fields on stress-strain behavior of underground structures 68

Geocology

- Yesenbayev B., Kolesnikov A., Naukenova A., Eremenko O., Issengaliyeva G.** Environmental assessment of the consequences of bauxite mining in Kazakhstan 82
- Shabanov M. V., Marichev M. S., Minkina T. M., Sokolov A. A., Mandzhiyeva S. S.** Electrokinetic recovery of soil in case of poly-element contamination 94

Mining industrial geology, Mining geophysics

- Sadchikov A. V., Zamaliyev N. M., Akhmatnurov D. R., Mussin R. A., Ganyukov N. Yu.** Application of mine geophysics method to solving problems of geology 109

Mining machinery

- Djuraev R. U., Merkulov M. V., Khatamova D. N., Normayev Q. H.** Improvement of drill bit efficiency by bottom-hole temperature reduction in air blast drilling 125
- Kardashin E. D., Zhuravlev A. G.** Influence of processing factors on metal consumption of receiving hopper of crushing-and-transfer facility 139

Geoinformatics

- Zatonskiy A. V., Kuznetsov S. V., Salomatova K. A.** Improvement of detection quality for parameters of flotation machines using neural network 153

Energetics and energy efficiency of mining industry

- Lyakhomsky A. V., Reshetnyak S. N., Kutepova E. N.** Influence of power quality factors on performance efficiency of electrotechnical systems of coal mines 168
