CONTENT

Geomechanics, Rock failure

Afanasev P. I., ***Akhmetov A. R.***, ***Fadeev A. A.***, ***Shmonin I. V.*** A seismic impact forecasting methodology for production blasts at the Kedrovsky coal mine based on explosives energy properties 5

Semenova I. E., ***Kulkova M. S.*** Determination of initial rock mass stress-strain state parameters of the Zhdanovskoe deposit using in-situ and numerical methods 19

Chuprin K. E., ***Mansurov V. A.***, ***Plaksin D. A.***, ***Eremenko V. A.*** Substantiation of frame mine design for underground mining of the Jerooy stockwork-type deposit with heterogeneous patterns of gold distribution in ore 33

Shilova T. V., ***Serdyukov S. V.***, ***Drobchik A. N.***, ***Ivanova O. A.*** Development of polymer reinforcement methods for loose rocks to improve the efficiency of exploitation of mines and engineering structures 46

Shchegolkov Y. S. Justification of the values of shifting angles in the conditions of mining the reserves of the Verkhnekamskoe deposit of potassium-magnesium salts. Part 1. Theoretical foundations and determination of shift angles under conditions of complete undermining of the earth's surface based on a theoretical-empirical approach 61

Geotechnology

Bespalov V. S. Safety assessment of undermining of waterproof pillar by the Krasniy-II layer in complex mining and geological conditions of the Verkhnekamsk salt deposit 85

Marinin M. A., ***Pospehov G. B.***, ***Karasev M. A.***, ***Sushkova V. I.*** Computational justification of the parameters of the drainage layer at the base of the dynamic pile of heap leaching 99

Geoecology

Strizhenok A. V., ***Petrova T. A.***, ***Pronin V. V.***, ***Shmonin I. V.***, ***Bezruchenko P. A.*** Justification of the possibility of using calculation methods to assess the intensity of pollutant emissions during mass blasting in coal open mines 114

Production organization and management in mining

Sidorenko A. A., ***Sidorenko S. A.*** Ground control maturity levels: a conceptual model for transitioning from reactive to strategic management in coal mines 131

Mining machinery

Yungmeister D. A., ***Serzhan S. L.***, ***Korolev I. R.***, ***Isaev A. L.***, ***Fedorov E. V.*** Designs and parameters of vehicles for bottom mining machines 145

Geotechnology

Bekbergenov D., Zeinullin A., Jangulova G., Zhanakova R., Bektibayev U. Justification of structural parameters for transport drift support in mines with complex morphology 159

Boyandinova A. A., ***Adilkhanova Zh. A.*** Key performance indicators of project management decisions for sustainable operation of geotechnological complexes 182

Mikhailov A. V., ***Smirnov A. I.*** Digging method analyzing organogenic materials mining by in-pit method 197
