

## CONTENT

### Mining machinery

<i>Altynnikov N. A., Plashchinsky V. A., Ivanov S. L.</i> Classification of ball drum mill lining.....	5
<i>Bashmur K. A., Zagulyaev A. V.</i> Influence of surface texture on dynamic characteristics of rotor–bearing system of centrifugal pump.....	20
<i>Mikhailov A. V., Repkina K. S.</i> Hydraulic fluid as a controlling factor of hydraulic system technical condition of mining machines.....	39
<i>Salimov A. E., Ivanov S. L.</i> Evaluation of the efficiency of maintenance of quarry excavators by the share of repair downtime.....	52

### Geotechnology

<i>Vagapova E. A., Ivanova P. V.</i> Complex of hydromechanized extraction and gasification of peat raw materials for remote and hard-to-reach regions.....	66
---	----

### Technosphere safety in mining industry

<i>Skopintseva O. V., Balovtsev S. V., Rybichev A. A.</i> Investigation of the explosion and fire hazard of coal dust in formations of the middle stage of metamorphism.....	80
--	----

### Energetics and energy efficiency of mining industry

<i>Dmitrieva V. V., Arinich A. E., Kravchenko V. A., Sizin P. E.</i> Virtual lab-scale simulator of relay protection and automation for power supply systems and electrical installations.....	95
<i>Zimin R. Y., Sychev Y. A.</i> Synchronization of self-contained power supply systems in solid mineral mining in the Arctic Shelf.....	110

### Geomechanics, Rock failure

<i>Bondarev A. V., Shvankin M. V., Vasilenko T. A., Prekin E. A., Moroz D. I., Spornyi A. I.</i> Features of deformations and fractures of the underlying rocks of a gas-bearing reservoir with associated gas release during its development.....	124
<i>Kashnikov Yu. A., Musikhin V. V., Bukin V. G., Grishko S. V., Anokhin N. A.</i> Comprehensive monitoring as a basis for modeling the deformation processes of rock formations of deposits.....	139
<i>Shchegolkov Y. S.</i> Justification of the values of shifting angles in the conditions of mining the reserves of the Verkhnekamskoe deposit of potassium-magnesium salts. Part 2. Determination of shift angles under conditions of complete undermining of the earth's surface based on an empirical approach. Comparative comparison of the obtained results. Shift angles under incomplete undermining.....	155

### Mining: scientific-and-technical information, theoretical findings, history, publications

<i>Chernyakov V. E.</i> Administrative barriers to the development of unaccounted-for placer gold reserves in the regions of the Far East.....	173
--	-----
