

CONTENT

Mine aerogasdynamics, Mining thermophysics

Olkhovsky D. V., Zaitsev A. V., Parashakov O. S., Perestoronin M. O. Reduction of cooling capacity of air conditioning systems in deep mines using the Cooling-On-Demand Concept	5
---	---

Geomechanics, Rock failure

Abdykarimova G. B., Shamganova L. S., Toksarov V. N., Berdinova N. O., Khairullaev A. M. Stress-strain and stability assessment of deep open pit slopes under the action of tectonic stresses	18
Evstratov V. A., Voronova E. Yu., Lugantsev B. B., Kholodova L. A. Modeling arching process in bedded rock mass above a mine tunnel at different dip angles of bedding	31

Geocology

Bolotnev A. Yu., Nechaev K. B., Batjargal D., Olzoev B. N. Stimulation of self-healing of disturbed land after sand-and-gravel extraction in steppe zone	41
Dubov N. D., Rozental O. M., Kulikova E. Yu. Statistical assessment and forecasting of the quality of groundwater in the Volga-Alb aquifer in an urbanized area	53
Klyuev R. V. Geoecological evaluation of processing technologies for ores with variable material constitution	67
Morgoeva A. D., Sokolova S. A., Mezhenkov A. A., Boldyreva V. E., Litvinov Y. A. Spatial nonuniformity of soil pollution in influence zone of reclaimed tailings dam	79
Puchkova T. V., Rogozov Yu. I., Plakhotin D. A., Lukyanov A. S., Sokolov A. A. Computer modeling and integrated evaluation of vegetation contamination with heavy metals on tailings dam surfaces after reclamation	92

Enrichment of minerals

Dvoichenkova G. P., Chut-Dy V. A., Babushkina A. L., Timofeev A. S., Vlasov A. S. Experimental testing of modifying reagents for activation of anionic collector in froth flotation of diamond-bearing materials with closed-loop water reuse	104
Makhno N. A. Simulation of volumetric fracture of copper ore and implications for laboratory flotation	116
Motovilov I. Yu., Adilzhan Zh., Algebraistova N. K., Sergali A. Y., Kalmantayev A. K. Mineralogical features of material constitution and handleability of ilmenite ore from the Satpayev deposit	127

Technosphere safety in mining industry

Akhmatnurov D. R., Musin R. A., Nemova N. A., Zamaliyev N. M., Reznik A. V. Assessment of geotechnical factors in spontaneous combustion of coal, and thermal monitoring of coal piles and waste dumps in Kazakhstan	140
Fedotkin I. O. Rapid assessment of fire parameters in coal mines using machine learning	157

Energetics and energy efficiency of mining industry

Dzyuin D. V. Improvement of two-drum multimotor electric drive of belt conveyor using its traction factor	167
