

CONTENT

Enrichment of minerals

<i>Sekisov A. G., Byankin M. A., Alekseev V. S., Rasskazova A. V.</i> Justification of physicochemical geotechnologies for polymorphic gold placers	5
<i>Nikitina Yu. N., Dvoichenkova G. P., Timofeev A. S.</i> Efficiency of magnetic separation in reduction of concentrate yield after float-and-sink separation at the Nakyn diamond-bearing placers.....	21

Geotechnology

<i>Klishin I. V., Eremenko A. A.</i> Optimization of crushing and classification of break-stone at the Samarsky quarry	40
<i>Skopinov M. V., Konosavskii P. K., Kharkhordin I. L., Potapov A. A.</i> Impact of brine on rock mass condition during 'wet' closure of potash mines.....	54

Mine aerogas dynamics, Mining thermophysics

<i>Levin L. Y., Sukhanov A. E., Maltsev S. V., Perestoronin M. O.</i> Experimental investigation of thermal conditions in face space of fully-mechanized blind heading of deep potash mine	69
--	----

Geocology

<i>Al-zamely S. S., Batugin A. S., Chesalova E. I., Amara I. Hussain, Wang Zhiqiang</i> Improvement of geological site assessment model for selecting areas for natural-man-made geodynamic parks	85
---	----

Mining industrial geology, Mining geophysics

<i>Patrakov Yu. F., Semenova S. A., Yarkova A. V.</i> Influence of coal grade composition on handling abilities of steam coal blends.....	103
<i>Shautenov M. R., Tretyakov A. V., Almenov T. M., Peregudov V. V., Assylkhanova S. A.</i> Fine-dispersed gold at placers in Kazakhstan	115

Geoinformatics

<i>Vorobeva G. R., Vorobev A. V., Shekhtman L. I.</i> Statistical interdependence of additional errors of magnetic inclinometers and geomagnetic activity in the Arctic Zone of Russia.....	137
<i>Zatonskiy A. V., Kuznetsov S. V., Plekhov P. V.</i> Introduction of compilation module in C++ to enhance efficiency of identification of froth flotation parameters.....	150

Energetics and energy efficiency of mining industry

<i>Semenov A. S., Semenova M. N., Bebikhov Yu. V., Yakushev I. A.</i> Computer modeling-based analysis of normal and emergency operation of power supply system at processing plant	162
---	-----
